

SAFE RECOMMENDED TEXT AREA

Finished size: 8.5" x 11"

With bleed: 8.75" x 11.25"

Please leave a 1/8" (0.125") bleed for each side

1. It is best to try to avoid using borders in your design. If a border is too close to the trim, the trim may be slightly off-center.
2. File must consist of 1/8" bleed and all important art and text must be within the safety margin.
3. Ensure that your PDF is high res and that all images are at 300 DPI.
4. Embed or outline all fonts.

Notes:

Pages with bleeds are printed on oversize sheet and then trimmed.

For 8.5x11 sheets with bleeds they are printed 2 up on a 12x18 sheet and then trimmed.

You do not need to create them 2 up, just provide the main setup with bleeds as a pdf file. We have the imposition software to take it from there.
